

Coronavirus Update 29th May 2020

Further to the recent announcement, Dental practices in England have been given a start date of 8th June 2020. This is GREAT NEWS for Dentistry and we are working on a plan to re-open our practice safely. Please bear with us at this time as we finalise our procedures and new measures to start seeing patients as soon as possible.

We have been working very hard on a plan to ensure patient and staff safety is paramount when we re-open.

We have been closed for routine care for over 2 months now and there will be a significant backlog of work that we will need to prioritise. We will be prioritising patients who need **URGENT** and **ESSENTIAL** treatment initially, followed by patients that were in between treatments before the lockdown. All routine appointments have been cancelled until the end of June at present.

We are seeking information and guidance from all of our professional bodies to ensure we are compliant with all the new rules and regulations that have been published. We are using this time to review all our policies and procedures and have obtained all the PPE necessary to start seeing patients as soon as possible. Our primary concern is for the safety of all our patients and all our staff. We will adapt and change our plans as new information and guidance is published.

Please do not attend the practice in person unless we arrange a specified time with you, and if you have an emergency please do not hesitate to contact us on 01977 702051 to speak to our team who will be happy to help.

We would like to thank you for your patience during these unprecedented times. We look forward to resuming our services and welcoming our loyal patients back to the practice and do our best to look after you and your dental needs.

Looking forward to a new beginning!

Best Wishes.

Team at P.R.Jones and Associates
